INDEX
to volume 19 jan-dec 1991

authors

Afrasiabi R: Exercise-induced asthma: it needn't sideline your patients, May, p 49
Albrecht RR: see Anderson WA, Feb, p 91
Aldrete V: see Yates MT, Nov, p 96
Anderson SJ: Acute knee injuries in young athletes, Nov, p 69
Anderson SJ: Overuse knee injuries in young athletes, Dec, p 69
Anderson WA: A national survey of alcohol and drug use by college athletes, Feb, p 91

Bach BR, Jr: see Reut RC, Mar, p 89
Bar-Or O: see Parker DF, Jun, p 113
Berlinski N: see Noakes TD, Jul, p 70
Biglow JR: see Mayor MB, Oct, p 75
Blanchard BM: Injuries in youth hockey: on-ice emergency care, Jan, p 54
Brainard BJ: Managing corns and plantar calluses, Dec, p 61

Cantwell JD: Lone atrial fibrillation: it needn't slow down an active patient, Aug, p 70
Carlucci D: Exercise: not just for the healthy, Jul, p 46
Carlucci D: see Goldfine H, Jun, p 80
Casamassima AC: Spontaneous pneumopericardium: a link with weight lifting? (case report), Jun, p 107
Castaldi CR: see Blanchard BM, Jan, p 54
Chambers MJ: Exercise: a prescription for a good night's sleep?, Aug, p 106
Clark N: Balancing the "bad foods" diet, Jun, p 61
Clark N: Eating for energy, Apr, p 45
Clark N: Fueling up with carbs: how much is enough?, Aug, p 68
Clark N: How to gain weight healthfully, Sep, p 53
Clark N: How to pack a meatless diet full of nutrients, Jan, p 31
Clark N: Revving up with sugar and caffeine, Nov, p 15

DeBusk RF: see Franklin BA, Dec, p 111
Diamond S: Exercise and headaches: when pain hinders athletic gain, Sep, p 78
Dillingham MF: see Vereschagin KS, Sep, p 96
Downing JF: Four complex joint injuries: avoiding long-term sequelae in children, Oct, p 80

Eichner ER: Sacred cows and straw men (editorial), Jul, p 24
Eisele SA: A precise approach to anterior knee pain: more accurate diagnoses and specific treatment programs, Jun, p 126
Elias SR: Team sports in hot weather: guidelines for modifying youth soccer, May, p 67
Erie JC: Eye injuries: prevention, evaluation, and treatment, Nov, p 108

Fanton GS: see Vereschagin KS, Sep, p 96
Faquin L: see Quadagno D, Mar, p 121
Feldman A: see Magnes SA, Jan, p 72
Ferenchick GS: Steroids and cardiomyopathy: how strong a connection? (case report), Sep, p 107
Fine KM: Prevention of cervical spine injuries in football: a model for other sports, Oct, p 54
Fourre M: On-site management of cervical spine injuries, Apr, p 53
Franklin BA: Exercise testing update: with or without CAD—when is activity safe? Dec, p 111
Froelicher VF: see Herbert WG, Feb, p 55
Froelicher VF: see Herbert WG, Mar, p 129

Gallup EM: Sports medicine law: staying inbounds and out of court (commentary), Nov, p 145
Gates JR: Epilepsy and sports participation, Mar, p 98
Glorioso J: see Wernicki PG, Apr, p 84
Goldfine H: Exercising to health: what's really in it for your patients?, Jun, p 80
Goldfine H: see Carlucci D, Jul, p 46
Gordon NF: see Franklin BA, Dec, p 111
Griffin GC: Don't let anyone die in your pool,(commentary), Jun, p 157
Grosse SJ: Treating auricular hematoma: success with a swimmer's nose clip (a technical note), Oct, p 98

Hahn RG: see Rettig AC, Apr, p 63
Hainline B: see Teman AJ, Feb, p 80
Halpern BC: Catching the cause of low-back pain (case conference), Jun, p 71
Hanson P: see Franklin BA, Dec, p 111
Harding WG III: Elbow pain in young tennis players: selecting the right racket, learning good technique, Sep, p 135
Hargarten K: Syncope in athletes: life-threatening or benign?, Jul, p 33
Haynes BE: Near-drowning: rescuing victims effectively, Jun, p 31
Herbert WG: Exercise tests for coronary and asymptomatic patients: interpretation and exercise prescription, Mar, p 129
Herbert WG: Exercise tests for coronary and asymptomatic patients: risk factors and methods, Feb, p 55
Hough DO: see Anderson WA, Feb, p 91

Jackson DL: Stress fracture of the femur: use a bone scan to distinguish it from a muscle injury (case report), Jul, p 39
Johnson C: see Reut RC, Mar, p 89
Johnson RJ: Help your athletes heal themselves (commentary), May, p 107

Kessler C: see Cantwell JD, Aug, p 70
Kirlin P: see Ferenchick GS, Sep, p 107
Kizer KW: Treating insect stings, Aug, p 33
Kleiner SM: Bite into a healthy life-style, Mar, p 15
Kleiner SM: Have your cake—and enjoy it too, May, p 15
Kleiner SM: Health food stores, Feb, p 15
Kleiner SM: Healthy Halloween: tricks to finding the best treats, Oct, p 15
Kleiner SM: Soft foods for a sore mouth, Dec, p 33
Kleiner SM: Tricking the taste buds, Jul, p 19
Kopelman HA: see Price G, Jan, p 41
Kuminka W: see Quadagno D, Mar, p 121

Lammert S: see Cantwell JD, Aug, p 70
Lathan SR: Chronic fatigue? consider hypothyroidism (case report), Oct, p 67
Leach RE: Achilles tendinitis: don't let it be an athlete's downfall, Aug, p 87
Lim G: see Quadagno D, Mar, p 121
Lowery DW: Soft tissue trauma of the head and neck, Oct, p 21
Lynch JM: see Grosse SJ, Oct, p 98

Magnes SA: Knee pain in a young football player: don't assume it's sports-related (case conference), Jan, p 72
Martinez R: Catastrophes at sporting events; a team physician's pivotal role, Nov, p 40
Mayor MB: Making a rockerboard for ankle rehabilitation (a technical note), Oct, p 75
McCarroll JR: see Rettig AC, Apr, p 63
McGrew CA: see Anderson WA, Feb, p 91
McKeag DB: see Anderson WA, Feb, p 91
Menendez E: see Whitehurst M, Jun, p 95
Moffatt R: see Quadagno D, Mar, p 121

Wernicki PG: Lifeguarding: the sport, the profession, the hazards, Apr, p 84
Whitehurst M: Endurance training in older women: lipid and lipoprotein responses, Jun, p 95
Wiens JJ: see Vereschagin KS, Sep, p 96

Yates MT: Blunt trauma causing aortic rupture (case report), Nov, p 96

Zawacki RM: see Pappas AM, Mar, p 107

subjects

Abdomen
intraabdominal injuries in athletics, case of spleen injury in rugby player illustrates need for careful observation and preparticipation screening (case conference), Mar, p 78
Adolescents
baseball pitching, potential shoulder injuries, total body conditioning to prevent injuries, Mar, p 107
case of knee pain being osteogenic sarcoma, not sports-related injury, diagnosis and treatment (case conference), Jan, p 72
coed sports, pros and cons, Sep, p 121
dangers of smokeless tobacco, Nov, p 46
high school football fatalities, no direct deaths in 1990, Sep, p 48

continued

high school football, Odessa Permian High School football program in Texas (book), Jun, p 22
hockey injuries, recommendations for on-ice emergency care, Jan, p 54
knee injuries in young athletes, effects of skeletal immaturity, proper management and prevention of long-term complications, Nov, p 69
smoking, effect of tobacco companies' marketing and sponsorship of professional sports, Nov, p 125
survey of smoking habits, Sep, p 55
weight lifting, risk of spontaneous pneumopericardium (case report), Jun, p 107

Aerobic
see Exercise

Aging
endurance training in older women, lipid and lipoprotein responses, Jun, p 95
older adults with diabetes, benefits of exercise, Mar, p 66; (letter) Jun, p 41
positive effects of exercise on several medical conditions, Jul, p 46

Air pollution
carbon monoxide exposure during exercise, effect on cardiac patients, Jan, p 28

Airway obstruction
chronic, increasing physical capacity, effectiveness of exercise, Mar, p 189
emergency management, Sep, p 35

Alcohol
use by college athletes, national survey, Feb, p 91

Allergy
insect stings, recommendations for venom immunotherapy, Aug, p 118
sports-aggravated (letter), Oct, p 41

Alzheimer's disease
exercise recommendations, Dec, p 85

American Academy of Sports Physicians
current certification and training offerings, Dec, p 133

American Board of Sports Medicine
current certification and training offerings, Dec, p 133

American College of Cardiology
recommendations for competition for athletes with cardiovascular abnormalities, 16th Bethesda Conference, Mar, p 41

American College of Sports Medicine
current certification and training offerings, Dec, p 133
updated exercise guidelines, Apr, p 38

American Heart Association
updated exercise guidelines, Apr, p 38

American Medical Society for Sports Medicine
current certification and training offerings, Dec, p 133

Anaphylaxis
sports-related (letter), Oct, p 41

Anemia
aplastic, link to tanning pills, Jan, p 26
athletes', overview, guidelines for iron supplementation, Apr, p 96

Ankle injuries
Achilles tendinitis, symptoms, treatment recommendations, Aug, p 87; (letter) Dec, p 25
boot-top lacerations in hockey, prevention of, Nov, p 26
open sprain of Walt Weiss, Sep, p 47
role of high tops in stabilization and prevention, Oct, p 29
sprains, lateral, graded stress radiography in diagnosis, Feb, p 107
sprains, rehabilitation through use of swim fins (letter), Apr, p 60
sprains, rehabilitation using rockerboard, Oct, p 75
sprains, severe, casting protocol (letter), Apr, p 60
sprains, severe (correction), Feb, p 34

Arthritis
aquatic therapy in rehabilitation, Oct, p 119

Arthroscopy
comparisons to MRI diagnosis of knee injuries, Sep, p 17

Artificial surfaces
questions about more injuries than on natural grass, Aug, p 125

Asthma
exercise-induced; causes, treatment, and prevention, May, p 49
exercise-induced, treatment and prevention, Aug, p 139
sports-aggravated (letter), Oct, p 41

Athletic care
assessing nutritional status as part of sports medicine physical, Nov, p 79
complying with rehabilitation recommendations techniques for improving compliance, May, p 107

Back
exercises for good spinal health, Dec, p 155
lumbar scoliosis and unlevel sacral base benefit from heel lifts, Aug, p 23
pain from prolonged bed rest, exercises to strengthen back and to avoid pain, Jun, p 165

Back pain
low, determining cause (case conference), Jun, p 71
low, using flexion and extension to increase flexibility and alleviate pain (letter), Aug, p 67

Baseball
repeat championships (correction), May, p 38
risks for adolescent pitchers, total body conditioning to prevent injuries, Mar, p 107

Baseball injuries
Little League elbow, diagnosis and treatment, Apr, p 36
Walt Weiss' open ankle sprain, Sep, p 47

Basketball injuries
common and unusual, Mar, p 135

Bicycling
aero handlebars, risks for recreational cyclists, Oct, p 29
means of commuting, Feb, p 44
new seat designed to prevent bicycler's penis (letter), May, p 35
recumbent, additional exercise option, Apr, p 34
safety of bike helmets, Jul, p 23

Bicycling injuries
cyclist's palsy, reducing inflammation and recommending changes in habits, Sep, p 112
de Quervain's disease and off-road mountain biking (case report), Sep, p 59

Bites and stings
insect stings, recognition and treatment, Aug, p 33
venom immunotherapy for allergic reactions, Aug, p 118

Blood glucose
effect of exercise, tips for fending off hypoglycemia, Feb, p 139
response to exercise in older adults with diabetes, Mar, p 66; (letter) Jun, p 41

Body composition
where excessive body fat is stored, health risks, Jan, p 123

Body temperature
hot weather team sports, guidelines for modifying youth soccer to reduce risk of heat-related injury, May, p 67; (letter) Dec, p 26
sweating, its importance and how to cope, Apr, p 103

Bodybuilding
increases bone mineral content in women, Mar, p 51

Bone
increasing bone mineral content with weight lifting, Mar, p 51

Bowling
fitness benefits, low risks of injury, Mar, p 180; (letter) Jun, p 41

Breast-feeding
effects of exercise, nutritional and physical considerations, Apr, p 109

Bush, George
recent atrial fibrillation, effect of exercise, Jul, p 23

Caffeine
effects on exercise, Nov, p 15
sports performance effects, Jan, p 82

Canadian Academy of Sports Medicine
current certification and training offerings, Dec, p 133

continued

Cancer
colon, risk in men reduced with exercise, Dec, p 52
low risk from diagnostic x-rays, Oct, p 26
osteogenic sarcoma, diagnosis and treatment (case conference), Jan, p 72
risk decreases in women who lose weight, Dec, p 52
skin, risks of sun exposure, Jul, p 100
Carbohydrates
see Nutrition
Cardiac rehabilitation
benefits of exercise training, Jun, p 80
Cardiovascular disease
see Heart disease
Casts
fiberglass, for severe ankle sprains (letter), Apr, p 60
Certification
sports medicine, what to know, where to go, Dec, p 133
Child development
developmental skills and children's sports, Feb, p 67
Children in sports
adolescent baseball pitchers, potential shoulder injuries, prevention through total body conditioning program, Mar, p 107
baby jogger guidelines (letter), Feb, p 34
bumper bowling, Mar, p 180; (letter) Jun, p 41
coed sports, pros and cons, Sep, p 121
complex joint injuries, prompt identification and treatment to minimize complications and avoid long-term sequelae, Oct, p 80
considerations for those with epilepsy, Mar, p 98
harmful parental pressure, identifying pushy parents and successfully intervening, Jul, p 92
hockey injuries, recommendations for on-ice emergency care, Jan, p 54
importance of physical activity to reduce childhood obesity, Jun, p 113
knee injuries in young athletes, effects of skeletal immaturity, proper management and prevention of long-term complications, Nov, p 69
Little League elbow, diagnosis and treatment, Apr, p 36
measles, hazard of indoor sports, Nov, p 21
overuse knee injuries in young athletes, diagnosis and treatment, effect of skeletal immaturity, Dec, p 69
promoting opportunities for young amputees, Jun, p 17
review of their developmental skills by age-group, Feb, p 67
sledding injuries, types, tips for reducing, Jan, p 90
youth soccer, hot weather modification guidelines, May, p 67; (letter) Dec, p 26
youth sports, guidebook (book), Mar, p 61
Cholesterol
effects of vigorous walking program for older women, Jun, p 95
fat replacements and substitutes in fight against heart disease, Jul, p 19
importance of exercise for heart-healthy dieters, Nov, p 26
revised guidelines on egg consumption, Jun, p 17
Circadian rhythms
choosing best time to exercise, May, p 100
Clothing
see Equipment
Cold
frostbite, management in athletes, Dec, p 19
College athletes
alcohol and drug use, national survey, Feb, p 91
Compartment syndrome
chronic, survey of satisfaction with surgical intervention, Apr, p 63
Compliance
important role in rehabilitation, techniques for improving patient compliance, May, p 107
Contact lenses
see Equipment
Contraceptives
"the pill", effect on athletic performance, Mar, p 143

Death
excessive numbers in the United States, prevention through risk factor elimination, Mar, p 51
high school football fatalities, none in 1990, Sep, p 48
sudden, in athletes with heart problem, heightened awareness of risks after Hank Gather's death, Mar, p 41
sudden, Sudden Death in Young Athletes Registry (letter), Mar, p 62; (correction) Jun, p 41
Dehydration
differentiation from symtomatic hyponatremia, study of consequences of intravenous fluid therapy, Jul, p 70
threat in collapsed runners, merits of intravenous fluid therapy (editorial), Jul, p 24; (letter) Nov, p 49
Dental care
minimizing effects of sweets on teeth on Halloween, Oct, p 15
Detmer, Ty
interview with 1990 Heisman Trophy winner, Feb, p 43
Diabetes
effects of exercise on insulin, Jul, p 46
in older adults, benefits of exercise, Mar, p 66; (letter) Jun, p 41
increased risk with abdominal obesity, Oct, p 136
role of exercise in prevention, Oct, p 26
tailoring exercise program to meet special needs, Sep, p 64
Diagnostic imaging
bone scanning to detect femoral stress fracture (case report), Jul, p 39
CT scan or MRI for diagnosis of exercise-induced headaches, Sep, p 78
graded stress radiography for diagnosis of lateral ankle sprains, Feb, p 107
in assessing cervical spine in athletes, Apr, p 53
MRI versus knee arthroscopy, Sep, p 17
radiographs to detect anterior cruciate ligament injuries, May, p 82
to detect aortic rupture, case in rugby player (case report), Nov, p 96
x-rays necessary in diagnosis of knee pain in children (case conference), Jan, p 72
x-rays pose low cancer risk, Oct, p 26
Directories
Sportsmedicine groups 1991, Jan, p 105
Drowning/near drowning
effective rescue techniques, Jun, p 31
getting water out of airway with Heimlich maneuver, Oct, p 104
Drug testing
college athletes' opinions about, Feb, p 91
questions about detecting recombinant erythropoietin (rEPO) in athletes, Aug, p 17
Drugs
anabolic steroids, physician convicted for selling them to professional wrestlers, Sep, p 48
anabolic steroids, tougher laws against use and prescription, Feb, p 46
anabolic-androgenic steroid use, connection with myocardial changes (case report), Sep, p 107
caffeine, sports performance effects, Jan, p 82
canthaxanthin for tanning, link to aplastic anemia, Jan, p 26
erythropoietin, deterring use by athletes, Aug, p 17
for hypertension, balancing risk of cardiovascular event with risk of cerebrovascular event, Sep, p 17
medication for exercise-induced headaches, Sep, p 78
oral contraceptives, effect on athletic performance, Mar, p 143
use by college athletes, national survey, Feb, p 91

Ear injuries
auricular hematoma, or "cauliflower ear," using swimmer's nose clip in treatment, Oct, p 98
hematoma and rupture, emergency field management, Oct, p 21
swimmer's ear, targeted treatment and preventive measures, Jul, p 85

continued

Education
fellowships in sports medicine, Mar, p 153
Elbow injuries
Little League elbow, diagnosis and treatment, Apr, p 36
pain in young tennis players, selecting right racket and learning good technique, Sep, p 135
Emergencies
airway obstruction, management, Sep, p 35
cervical spine injuries, on-site management, Apr, p 53
evaluating syncope in athletes, Jul, p 33
frostbite, management in athletes, Dec, p 19
Heimlich maneuver for near drowning, getting water out of airway, Oct, p 104
insect stings, recognition and treatment, Aug, p 33
life-threatening injuries in youth hockey, management, Jan, p 54
multi-casualty incidents during sporting events, role of team-physician, Nov, p 40
near-drowning, effective rescue techniques, Jun, p 31
planning for life-threatening situations, Feb, p 35
soft tissue trauma of head and neck, emergency field management, Oct, p 21
sports-related catastrophic injuries, Jun, p 44
vacation, physicians should be medically prepared, May, p 90
Employee fitness
see Industry fitness
Endocrine disorders
hypothyroidism secondary to thyroiditis, role in chronic fatigue, six case reports, Oct, p 67
Environmental hazards
carbon monoxide exposure during exercise, effect on cardiac patients, Jan, p 28
Epilepsy
recommendations for sports participation, Mar, p 98
Equipment
aero handlebars, risks for cyclists, Oct, p 29
appropriate footwear to manage corns and plantar calluses, Dec, p 61
baby jogger guidelines (letter), Feb, p 34
bicycle seat designed to prevent bicycler's penis (letter), May, p 35
bike helmets, safety of, Jul, p 23
breakaway bases safer in softball, reduce risk of base sliding injuries, May, p 124
contact lenses, tips for swimming safety, May, p 18
effect of changing shoes during an ultramarathon, Sep, p 29
eye protection for sports participation, Feb, p 128
high-top athletic shoes, role in ankle stabilization and injury prevention, Oct, p 29
modern black bag (letter), Feb, p 32
powered safety pool covers to help prevent accidental drownings (commentary), Jun, p 157
proper breast support for breast-feeding mothers resuming exercise, Apr, p 109
protective equipment for hockey players (letter), Mar, p 64
protective eyewear to reduce injuries, Nov, p 108
rockerboard for ankle rehabilitation, Oct, p 75
ski, tips for reducing injuries, Feb, p 120
socks, choosing the right ones, physician's recommendations, Dec, p 125
Ethics
tobacco companies' role in marketing and sponsorship of professional sports, Nov, p 125
Exercise
allergies, sports-aggravated (letter), Oct, p 41
baby jogger guidelines (letter), Feb, p 34
balancing flexion and extension to alleviate low back pain (letter), Aug, p 67
benefits for older adults with diabetes, Mar, p 66; (letter) Jun, p 41
benefits of, for patients with variety of medical conditions, Jul, p 46
bladder leakage, incidence and control, Jan, p 16
bowling, fitness benefits, low risks of injury, Mar, p 180; (letter) Jun, p 41
burning calories for weight loss, Nov, p 151
by breast-feeding mothers, special considerations, Apr, p 109
cardiovascular fitness associated with lower employee absenteeism, Apr, p 28
cause of increased airway resistance—exercise-induced asthma—treatment and prevention, May, p 49
cause of ventricular tachycardia, evaluation and treatment (case report), Jan, p 41
conditioning to reduce incidence of ski injuries, Feb, p 120
coping with recession-induced stress, Jun, p 18
effect of "the pill" on athletic performance, Mar, p 143
effect on blood sugar level, Feb, p 139
effects of carbon monoxide exposure, particularly cardiac patients, Jan, p 28
effects of sugar and caffeine, Nov, p 15
exertional headaches, diagnosis and treatment, Sep, p 78
finding comfort zone and recognizing importance of tempo, Nov, p 53
for low-back pain during prolonged bed rest, Jun, p 165
for those with chronic airway obstruction, means for building physical capacity, Mar, p 189
health benefits of active life-styles, Jun, p 80
importance for heart-healthy dieters, Nov, p 26
importance for obese children, Jun, p 113
importance of nutrition in maintaining healthy energy levels, Apr, p 45
in men, reduces colon cancer risk, Dec, p 52
in pregnancy (book), Dec, p 48
moderate for healthy life-styles, powerful role physicians play, Mar, p 167
physical benefits of orienteering, Mar, p 48
program for health, preprogram evaluation, Aug, p 94
recommendations for those with degenerative neurologic disease, Dec, p 85
recumbent bicycling, additional option for becoming physically fit, Apr, p 34
relation to atrial fibrillation, Jul, p 23
role in insomnia management, Aug, p 106
role in preventing diabetes, Oct, p 26
running, less is more, Jan, p 21
steps for maintaining good posture, Feb, p 124
strenuous, preventing heat injury, May, p 31
stretching for good spinal health, Dec, p 155
task-specific versus cross training, Jul, p 113
time of day, weather, air quality, choosing, May, p 100
total body conditioning to prevent injuries in adolescent baseball pitchers, Mar, p 107
triggering asthma attack, treatment and prevention, Aug, p 139
updated guidelines from American Heart Association and American College of Sports Medicine, Apr, p 38
walking program for older women, lipid and lipoprotein responses, Jun, p 95
water polo, fitness benefits, low risks of injury, Apr, p 118
Exercise prescription
for coronary and asymptomatic patients, Mar, p 129
